What is GLMC?

A global platform shaping the future of labor markets through inclusive dialogue, knowledge exchange, and tangible innovation

What is GLMC?

GLMC launched in 2023 as a global conference to reimagine the future of labor. Its success revealed a deeper need for continuous, collaborative dialogue around labor market challenges.

Today, GLMC operates as an integrated platform powered by three key pillars:

- 1.** An annual high-level conference
- 2.** Ongoing research and outcome reports
- 3.** The GLMC Labor Market Academy
